**[www.lightspeedkayaks.com](http://www.lightspeedkayaks.com)**

*All Lightspeed kayaks have Keelguard™ Strips fore and aft to protect your investment while loading, beaching, landing, or dragging your kayak. Made of Delrin™, think cutting board material, Keelguard™ strips are a long lasting money saving and boat preserving feature.*

*Sporttrek™ Rudder: The ONLY balanced foil rudder in the kayaking world provides unsurpassed efficiency, handling, and control. The Sporttrek™ retracts internally, can function as a skeg, kicks up on impact, and has single line deployment. Nothing will speed your journey like a Sporttrek™ Rudder.*

*Real Rubber handles are soft and comfortable. A forward day locker for valuables, accessibility, beefy U-bolt lock anchors show our commitment to detail and function in our designs.*

*Specifications:  
Length: 18'2"  
Width: 27.5"  
Weight: 66lbs  
Hatches: 16"x8", 13"x6"  
Layup: Propriety Kevlar™ and fiberglass standard*

*The Synergy is a departure from all other day touring doubles on the market. At 18'2" x 27.5" and weighing in at 66lbs the Synergy is a lightweight, efficient double for all your day touring needs.*

*Virtually all other day touring doubles are rotomoulded, short and heavy. Thermoforming provides lightweight, exceptional cosmetics and sleek performance.*

*The Synergy comes standard with all of the advanced features of our full size touring double, without the weight of the price.*

*Step up and step out in a Synergy, keelguards, rubber padded handles, 2 day lockers, U-bolt lock anchor, and our advanced Sporttrek™ rudder.*
