*Width: 27.5"*

*Weight: 38lbs*

*Depth: 14"*

*Hatches: 15"x8", 6.75"*

*Is the most popular in our lineup!*

*Introducing the Fusion*

*The fusion is the latest in our great lineup of thermal formed kayaks. At 12'1" and sporting a 27" beam the fusion is rock steady. The dual channel hull form allows for straight tracking without compromising maneuverability.*

*Unlike many rec kayaks the Fusion comes with 2 main storage compartments, bulkheads fore and aft, and a 15"x8" rear oval hatch and a 6.75" round front hatch. Soft rubber handles for carrying make it easy and comfortable to carry and load. Complete with ample deck rigging for external loads and enhanced lock up security from a beefy u-bolt on the foredeck.*

*Entry and exit are enhanced by a large cockpit and ample foredeck height. Ideal for fishing, photography, and just about everything else, the Fusion isn't just a pretty face, but a great paddle as well. Straight tracking with a fine, fast entry, and a long waterline that almost equals its overall length the Fusion will fill the bill for a couple hours or a couple of days. Adding to the appeal of this attractive package is an all in weight of just 39lbs.*

*Rudder, flush deck rod holders, or sail rig as available options.*
